

## Raven

Raven is a three year old Malinois who does flyball. Owner had commented her time was slowing down and she was not turning to the right. *6 vets came up with nothing.*

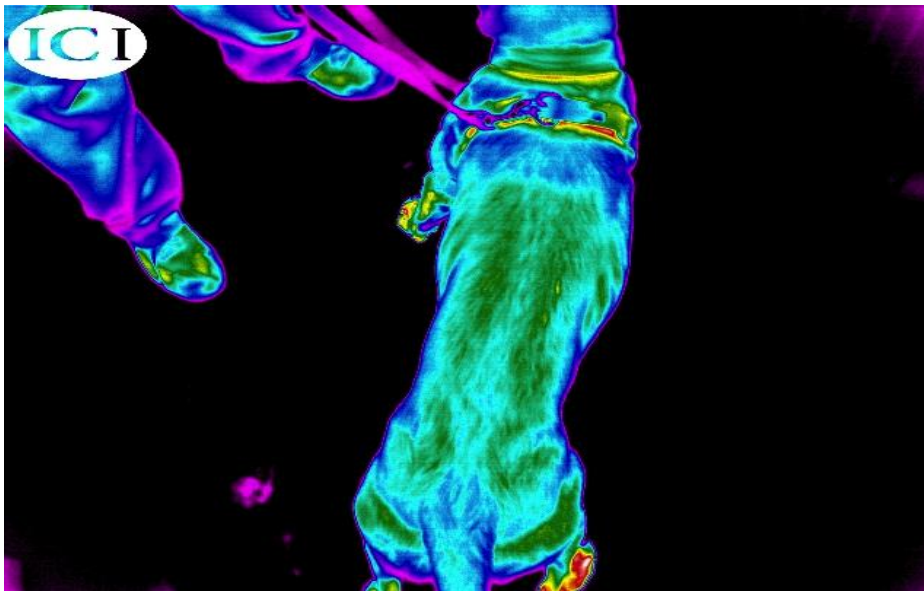

### Before

**Digatherm** Thermal Imaging System easily identified location of soft tissue inflammation.

Treated with Class IV Companion Therapy Laser one time with Deep Tissue Applicator.  
One Dose of 2300 Joules over spinal area identified.

### After

Debbie Gross, DPT, MSPT, Diplomat ABPTS, CCRP
